CFM: Cubic Feet per Minute

FPM: Feet per Minute

TP: Total Pressure, inches w.g.

T: Throw in feet

NC: Noise Criteria

*All pressures are in inches of water.

* Blank areas denote NC values less than 10 and CFM values less than 50.

*Throw values are measured in feet for terminal velocities of 150/100/50 FPM.

*Throw values are based on fixed louvers set at 45 degrees.

* Throw may be increased or decreased by as much as 20% by changing angle of louver.
